VIT-AP UNIVERSITY ? ACADEMIC REGULATIONS & EVALUATION SYSTEM

1. Fully Flexible Credit System (FFCS)
VIT-AP University implements the Fully Flexible Credit System (FFCS), empowering students to design their own academic trajectories:
- Freedom to choose courses, class timings, and preferred faculty members each semester.
- Opportunity to study at one's own pace (fast-track graduation or spread out credits).
- Flexibility to opt for Minors in complementary disciplines (e.g., Computer Science majors taking a Minor in Business Management or AI) and Honours degrees.
- Minimum credit requirements for B.Tech degree completion: typically 160 to 165 credits spread across 8 semesters.

2. Course Categories
Curricula are divided into:
- University Core (UC): Compulsory foundational subjects including Calculus, Physics, Chemistry, English, and Soft Skills.
- Programme Core (PC): Essential core domain courses for the discipline (e.g., Data Structures, Operating Systems, Computer Networks).
- Programme Electives (PE): Advanced specialized discipline subjects.
- University Electives (UE): Interdisciplinary open electives across engineering, sciences, humanities, and management.
- Co-curricular & Project credits: Capstone project, industrial internships, and technical seminars.

VIT-AP University · Attendance Policy & Examination Rules (Page 2)

2. Attendance Regulations & Minimum Requirements
VIT-AP University enforces a strict attendance policy to maintain academic rigor:
- Minimum Mandatory Attendance: Students must maintain at least 75% attendance in each registered course (Theory, Lab, and Embedded courses).
- Calculation: Attendance percentage = (Number of classes attended / Total number of classes conducted) * 100.
- Debarment Policy ('N' Grade): Students whose attendance falls below 75% in a course are debarred from appearing in the Term End Examination (TEE) for that course.
- Debarred students receive an 'N' grade and must re-register and re-attend the entire course in a subsequent semester.
- Medical & On-Duty (OD) Leave: Attendance relaxation of up to 10% (lowering threshold to 65%) is considered strictly for authorized medical hospitalization or approved university representation in cultural/sports events, subject to prior approval by the Proctor and Dean of the School.

3. Examination and Evaluation Framework
Evaluation consists of two major components:
- Continuous Assessment Tests (CAT):
  * CAT-1: Conducted around the 5th to 6th week covering initial syllabus modules (typically 15% weightage).
  * CAT-2: Conducted around the 10th to 11th week covering subsequent modules (typically 15% weightage).
  * Digital Assignments & Quizzes: Continuous in-class assessments, quizzes, and project milestones (typically 30% weightage).
- Term End Examination (TEE):
  * Comprehensive final examination conducted at the end of semester covering the complete course syllabus (typically 40% weightage).
  * Eligibility: Mandatory minimum 75% attendance.

VIT-AP University · Grading System & Academic Standing (Page 3)

4. Grading System and Grade Points
Performance in examinations is translated into letter grades using a 10-point scale:
- S Grade: Outstanding (10 Grade Points)
- A Grade: Excellent (9 Grade Points)
- B Grade: Very Good (8 Grade Points)
- C Grade: Good (7 Grade Points)
- D Grade: Satisfactory (6 Grade Points)
- E Grade: Pass (5 Grade Points)
- F Grade: Fail (0 Grade Points, student must reappear in supplementary/regular exam)
- N Grade: Debarred due to attendance shortage (<75%) (0 Grade Points, student must repeat course)

5. Grade Point Average (GPA) & Cumulative Grade Point Average (CGPA)
- GPA is calculated at the end of each semester:
  GPA = Sum(Course Credits * Grade Points) / Sum(Course Credits)
- CGPA reflects overall cumulative performance across all completed semesters:
  CGPA = Cumulative Sum(Course Credits * Grade Points) / Cumulative Total Credits Registered

6. Academic Integrity & Code of Conduct
- Plagiarism in assignments, laboratory reports, or capstone projects is strictly prohibited.
- Malpractice during CAT or TEE examinations is reviewed by the Examination Disciplinary Committee (EDC) and results in strict penalties including course debarment or suspension.
